THE LYNCHING IN

Pinkney Murphy Executed in a Dramatic Manner-

THE ROPE READY IN HIS PATH.

Taken From the Officers and Swung to a Tree Before They Realized What Was Being Done-He Planned to Leave County.

(Special Dispatch to The Times,) LYNCHBURG, VA., Sept. 17 .- Complete details of the lynching at Arrington, Nelson county, on last Friday night, have theen received here. As stated by your correspondent, a negro named rinkney eMurphy committed a criminal assault on Miss Elon Bosworth, a well-known Chighly respected young lady, and a daughter of the late Mr. Peres Bosworth, a corner resident of Appointion. Miss Bosworth lived with her mother and trothers within about a mile of Arrington. On last Friday morning at about eleven o'clock she went a short instance to a neighbor's house to pay a vist. On her return home at about twelve o'clock sie had to pass through a small body of woods, and when some distance under the trees she was accosted by the negro Murphy, who asked her if one had seen anything of his little dog. Knowing Murphy well, she aid not hesitate to reply to his question, and having answered she started to continue her walk.

started to continue her walk.

THE ASSAULT.

As Murphy passed Miss Bosworth he grasped her by the threat and choked her to insensibility, and after wreaking his purpose left her lying upon the ground apparently dead. In a short while after the negro disappeared Miss Bosworth recovered consciousness and at once began screaming for help. As she was not more than three hunared yards from her home, her cries were soon heard, and one of her her cries were soon heard, and one of her brothers hastening to the spot found her lying helpless upon the ground. She was in a pitiable condition and was badly bruised.

Miss Bosworth was at once removed to her home and the alarm given in the neighborhood. People in all directions turned out to hunt for Murphy, but the search for several hours proved futile. It seems that the negro after committing

It seems that the hegro after committing
the crime recognized the enormity of his
deed and concealed himself in the bushes.

TRYING TO ESCAPE.

Towards night he made his way to Arrington, where he tried to obtain some
money due him for work in a stave mill.
It is thought that he intended taking a
train at that point and thus getting safely
worked the county. His plans however, out of the county. His plans, however, miscarried very scriously; for he had been at Arrington but a short while when he was discovered by a party of the searchers and placed under arrest. Soon after-wards he was carried before Miss Bos-worth, who promptly and readily identi-fied him as her assailant, and later on, ft is stated, Mur,ny made a full con-fession. When taken before a mag-s-trate, he was sent on to the grand jury and orders were issued that he be removed at once to the county juli at Lov-ingston. He was committed to the care of two young men, who, with the negro, started for the county seat in a single

STOPPED BY A CROWD.

When the guards and their prisoner reached the forks of the road at Timber Ridge Church, a few miles from Arrington, they were stopped by a crowd of men. From that time until the close of the strangest seepes ever recorded in the the strangest scenes ever recorded in the history of lynchings. When the buggy arrived at the forks of the road it was between seven and eight o'clock, and in the gloom of the night that was fast falling, the occupants of the vehicle could see men lined up on either side. From the limb of a tree dangled a rope and the noose at the end of it announced only too plainly the intention of the crowd. Not a single word was spoken, and throughout the proceedings an intense silence prevailed. The moment he saw the men on the roadside and the sinister rope hanging before his eyes, the negro Mur-phy recognized his fearful situation.

A QUICK EXECUTION.

One hand he threw out and seized one of his guards while with the other he grabbed the top of the buggy. He evidentily meditated springing from the vehicle and attempting to run for his life. In the twinkle of an eye, however, a dozen hands thad hold of him and he was torn from the buggy with such force that the top of the vehicle came with him. By the action of the lynchers the horse was thrown with some violence to one side and a shaft of the buggy was broken. For a moment or two the officers had to devote themselves to checking the horse and bringing the buggy back to the road. As quick as they were, they did not re-cover themselves before the negro had been dragged to the tree and swung up from the ground. It is stated that before the two officers fully realized what had happened, the negro's body was swaying in the night wind with dozens of bullet noies in it, while the crowd of lynchers were filing down the turnpike and rapidly disappearing from view.

Husband's Insane Action Cost Mrs. Buchler Her Life,

(By Associated Press.)
CHICAGO, ILL., Sept. 18.—Mrs. Florence Buehler died at the county hospital last evening because her husband, Ernest Buehler, frightened her. He flourished a revolver and threatened to kill her. She was so terrifled that she fell unconscious into the street, where they were walking

cipal speeches.

The first speaker was Governor Frank
W. Rollins, who referred to the union of
the North and South as typified in the at the time. Afterward Buehler was locked up in the police station, where he became despond-ent and committed suicide by puncturing ernor Johnston, of Alabama, who kept the entire company in a roar of laughter with his humorous remarks, closing his speech with an eloquent peroration on the events of the day. Secretary of the Navy Long responded, the artery in his wrist with a pin. The police found him lying on the floor from the loss of blood and took him to the county jail hospital. He again attempted his life in the same manner and died.

STRIKE CAUSES AN ADVANCE IN COAL

(Continued from First Page.)

Districts No. 1, No. 7 and No. 9, of the anthracite coal region, show that there have been great accessions to the ranks of the strikers to-day. In District No. 7 (Hazelton region) not less than 1,500 mine workers who mined yesterday failed to report for work this morning, thus increasing the total number on strike from 19,000

to 11,600 to-day.
"In District No. 9 (Schuylkill) our forces have been augmented by 4,500 mine work-ers in addition to the 30,000 reported yesterday. The situation in District No. 1 (Lackawanna-Wyoming) is practically the same as the first day of the strike, only 200 remaining at work. The total number of men idle, 118,000. From every section of the anthracite region reports indicate that much dissatisfaction prevails among those who have up to this time failed to participate in the strike, and I confidently expect that the number at work will grow less with each succeeding day, until the mines shall be completely closed.

WHAT OPERATORS SAY.

AStrtement Is Issued by President Garrett.

(By Associated Press.)
NEW YORK, Sept. 18.—John B. Garrett, vice-president of the Lehigh Valley Coal Company, yesterday made the following statement in review of the various grievances alleged by the United Mine Workers to exist in the anthracite coal fields:

"This company conducts no stores, nor does it exert any influence upon employes to prefer one merchant above another. This I believe to be also the case with the

This I believe to be also the case with the farge mining companies generally. "This company employes no doctors and makes no charges against its employes for medical services to them or their famflies. Inquiry has satisfied me that this is also the case with the companies generally, and that the company doctor is charged for only individual operators, and by very few of these.

"Semi-monthly pay is observed by us in few cases. It would be observed everywhere was the demand made as called for by law. I may frankly state, however, that in my judgment more frequently that in my judgment more frequently payment is undestrable for both the em-ployer and the employe, as paydays, when-ever and as often as they occur, are fol-

lowed by decreased efficiency on the part

of the men, resulting in reduced time, lessened output and, consequently, in-creased cost.
"The use of the 'ton' as applied to 3.-"The use of the ton as applied to o-200 pounds is a mishomer; it is simply a unit of measure which might be called a car or a cartload or by any other name and in the quantity of actual coal, plus bone, slate and other foreign material, for the removal of which a certain pay-ment is made under the agreed scale of ment is made under the agreed scale of wages. It was probably originally adop-hed as representing approximately the amount of crude material from what of prepared coal could be expected, but the amount would necessarily vary at the

several mines and from the same mine at the hands of different workmen. The price charged for powder is an apparent, but not a real, grievance. In some regions \$2.75 per keg is charged in others \$1.50 per keg. This of itself should be suffi-cient evidence that the compensation of the miner is set independently of the price of powder, as a net return, for a day's labor must be essentially the same in neighboring fields, whether one or the other price is charged for the powder.

office price is charged for the product.

"If a man were valued at \$2.50 per day and with due care he would use a key of powder valued at \$2.75 in five days, the day's consumption of powder, fifty-five cents, would be added to \$2.50 and he would be engaged on a basis of \$3.05 per day and charged with powder used at the price agreed upon. The same method is price agreed upon. The same method is for the car. Another evidence that the price of powder does not create an inevidence that the jury to the miner is shown by the fact that when the subject was agitated some time ago one of the larger companies offered to reduce the charge of powder to its then current value, providing the men would consent to such revision of their labor as they had previously received un-der the agreement which was then operative. This was promptly rejected, showing that their purpose was to effect an in-crease of wages, and that if this could not be obtained they preferred to maintain the apparent grievance which could be and has been from that time to this used as a ground of complaint of unfair

treatment. "Eliminating the foregoing alleged grievances from the list formulated by the United Mine-Workers, nothing whatever remains for a general demand for increased pay and recognition of the order as the agency through which differences should be adjusted. That the methods of denced by the inclusion in the list of grievances of matters which are purely local and apply to very few indeed of the antaracite employes, while they put be-fore the public as general grievances for which the operators as a body are responwhich the operations as the power to correct, also, by their determination to provoke tens of thousands of men to strike who neither have nor profess to have any grievance whatever against
